

伯特利中學

BETHEL HIGH SCHOOL

你們必曉得真理，

真理必叫你們得以自由

You will know the Truth,

and the Truth will make you free

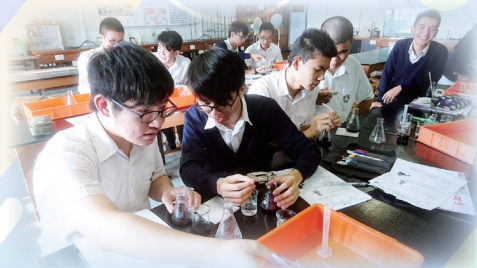

辦學宗旨

School Missions

本著基督精神，貫徹有教無類及因材施教的教育理想，培養學生在靈、德、智、體、群、美、樂七育的均衡發展，務使學生認識聖經真理，建立健全人格，發揮天賦潛能，立足社會，貢獻社群。

We provide students with a holistic education based on Biblical principles, aiming at their spiritual, moral, intellectual, physical, social, aesthetical and emotional development, so that they will know the Truth, build up a noble character, develop their potential and serve the community.

推動電子學習及STEM 教育（科學、科技、工程及數學），發揮學生創意潛能；校方已實施「一人一ipad」計劃，每位中一及中二學生均獲配備ipad電子學習工具，有助運用網上教學資源，加強自學能力。學校提供足夠而多元化的活動，擴闊學生的視野。個別級別和科目進行課程調適，以照顧學生的學習差異。

To keep abreast of current trends in education, we have developed a school-based curriculum and actively responded to recent changes in the curriculum. We have fostered the use of student-based learning as a teaching paradigm, such as promoting e-learning and STEM Education (Science, Technology, Engineering and Mathematics), to develop the potential of students' creativity; The school has implemented the "1-to-1 ipad" program. Each of the S.1 and S.2 students has been equipped with an ipad as an e-learning tool to help them use online teaching resources and enhance their self-learning ability. We provide our students with diversified activities so as to broaden their horizons. We have also redesigned the curriculum for certain forms and subjects to cater for learner diversity.

校訓 School Motto

你們必曉得真理，
真理必叫你們得以自由。

約翰福音八章卅二節

You will know the Truth,
and the Truth will make you free.

John 8:32

各科特色 表現出色

Characteristics of School Curriculum

中國語文 Chinese Language

著重全面培養學生閱讀、寫作、聆聽、說話和思維等語文能力，提高學生學習興趣，啟發學生思想，培養良好品德，加強學生對社會的責任感；並透過全方位學習增進語文學習的深度和廣度，為學生奠定終身學習的基礎。

English Language

The English lessons are designed to equip students with essential language skills for their further studies and career pursuits. In addition to these lessons, students are provided with extensive opportunities to enhance their confidence and perfect their presentation skills by taking part in a large variety of fun and informative after-school activities and inter-school competitions.

數學科 Mathematics

為初中學生設計校本課程，以TSA能力為基礎，重點培訓他們的數學基礎能力。於課堂中加入電子學習及STEM活動，從不同角度提升他們的興趣及能力。

A school-based curriculum has been designed for junior form students based on TSA requirements with a focus on training students' mathematical foundation skills. E-learning and STEM activities are integrated in lessons to enhance students' interest and abilities.

IGCSE Chinese Language / Applied Learning Chinese

The curriculum is designed to cater for the public exam of the IGCSE/Applied Learning Chinese. Students are streamed and taught in groups. Students always obtain good results in the public exams. In GCSE, over half of the students obtained an A or an A*.

通識教育科及綜合人文科

Liberal Studies and Integrated Humanities

透過議題探究和主題式專題研習，達到「學會學習」目的；我們著重跳出課室，藉著討論、辯論、境內/外的考察和參觀，透過親身的觀察接觸，拓闊視野。

Through issue-based studies and project-based learning, we achieve the aim of 'learn to learn'. We believe that students should not be confined to the classroom, but have discussions, debates, in-bound and out-bound visits and tours to have hands-on experiences and broaden horizons.

中國歷史科及歷史科 Chinese History and History

訓練學生運用邏輯，了解歷史人物和歷史事件的相互關係。我們著重全方位學習活動，跨學科合作，活動靈活多變，提升獨立思考能力。

We train students to have a logical mind, to understand historical figures, historical events and the causes of them. There are diversified activities including life-wide learning activities and collaboration across subjects to enhance students' independent thinking.

視覺藝術科 Visual Arts

注重培養學生學習視覺藝術的興趣，拓展學生的視野。透過舉辦比賽、參與視覺藝術活動、參觀展覽等，鼓勵學生走出校園，以多角度來去認識及欣賞充滿視覺藝術的世界。

We cultivate students' interest in learning visual arts and broaden their horizons. We encourage students to see beyond the campus. Through taking part in competitions, participating in arts events and visiting exhibitions, students learn to appreciate an artistic world from different perspectives.

電腦科及資訊及通訊科技科

Computer Literacy and Information & Communications Technology

加入編程及 STEM 元素，如編程機械車 mBot、製作機械人，令課程多元化，培養學生創意思維及解難能力。著重全方位學習經歷，從中探索科技的樂趣。

We redesigned the curriculum adding programming and STEM elements, such as mBot programming and making robot models, to make the curriculum more diversified in order to nurture students' creativity and problem-solving skills. We highly appreciate learning through life-wide learning experiences.

地理科 Geography

提供不同的學習體驗及經歷，跳出課堂框框，透過全方位實地考察以提升學生學習動機，開拓視野。配合 STEM 教學改革，引入「智能沙箱」，利用高科技設備，增強互動及現實體驗，錦添學習興趣。

We give students different learning experiences outside the classroom. We raise students' interest, boost their learning motivation and broaden their horizons through life-wide learning and field trips. To integrate STEM education into our curriculum, we introduced the 'Augmented Reality Sandbox', using high-tech equipment to give students an instant interactive experience to make learning more fun.

科學科、物理科、化學科及生物科

Integrated Science, Physics, Chemistry and Biology

培養學生對科學的好奇心和興趣，了解科學和日常生活之間的密切關係，引發學習動機；透過不同多元化活動、實驗探究及參觀等全方位學習經驗，令學生主動及投入學習、提升科學探究技能，為科學和科技領域作出貢獻。

We nurture students' curiosity and interest towards science. We teach students to understand the close relationship between science and daily life. Through different teaching strategies and diversified activities, students are led to be proactive and keen on learning, and to enhance their scientific investigation, which will benefit themselves and society, and make contributions to scientific and technological development.

經濟科 Economics

運用 e-Learning 培養學生在生活中應用相關理論和知識的能力，使學生能作出理性的分析和判斷。

We make use of e-Learning to train up students' abilities to apply theories and knowledge to their daily lives, do analysis and make good judgement.

家政科 Home Economics

採用多元化形式如電子學習資源、電腦資訊、分組討論、海報設計等，教授持家的知識和技巧，培養學生成為健康及有責任感的家庭成員。

We adopt diversified teaching strategies such as using e-Learning resources, online information, group discussions and poster design to teach students the knowledge and skills of managing a home. We also aim at building our students to be a healthy and responsible family member.

設計與科技 Design & Technology

學生除可學習解難技巧和科技知識外，課程設計也配合 STEM 教育發展，

引入 3D 打印技術，透過電腦輔助設計軟件，利用 3D 打印機列印出來，將意念繪製成實物。學生掌握最新科技，發展創意思維。

In addition to learning problem-solving skills and technological knowledge, the curriculum is also in line with the development of STEM education. We introduced 3D printing technology. By using computer-aided design software and 3D printers, students can turn their ideas into real objects. Students are able to master the latest technology as well as develop their creativity.

音樂科 Music

推行「一人一樂器計劃」，發掘學生的音樂潛能，建立自信心、從體藝活動中學習與人相處、培養情趣，使人生豐富多姿。

The "One Student, One Instrument" Program aims to explore students' potential in music, build up their self-confidence, let them learn how to work with people through sport and artistic activities, cultivate their interest and enrich their daily lives.

體育科 Physical Education

學習各種運動技巧，養成積極參與體育活動的習慣，使同學建立活躍及健康的生活方式。

Students learn the skills of playing various sports. We help them form a habit of participating actively in sports to live a vigorous and healthy way of life.

制服團隊 Uniform groups

學生參與制服團隊，透過團隊具挑戰性和系統性的訓練和活動，能訓練學生成為樂於助人、有責任感及服從精神的人。

Students are able to participate in uniform groups and learn how to face challenges with the help of systematic training and activities. Students are also trained to be helpful, responsible and obedient.

Nepali and Urdu

हामी नेपाली तथा पाकिस्तानी विद्यार्थीहरूका निमित्त नेपाली तथा उर्दु भाषाका कक्षाहरू प्रदान गर्दछौं ताकि उनीहरूले आफ्नो मातृ भाषा तथा अद्वितीय संस्कृतिको बारेमा अध्ययन गर्न सक्न् । हाम्रा विद्यार्थीहरूले क्याम्ब्रिज युनिभर्सिटीद्वारा संचालित नेपाली भाषाको GCE परीक्षाहरूमा उत्कृष्ट नतिजा हासिल गरिरहेका छन् ।

ہم پاکستانی بچوں کو انگلش اور پائینیز کے علاوہ اُن کی مادری زبان اردو سکھانے کی سہولت بھی مہیا کرتے ہیں تاکہ وہ اپنے کلچر سے منسلک رہ سکیں اور آنے والے وقت میں اپنی پیدائش کے ساتھ ہانگ کانگ کے بہترین شہری بن سکیں۔

生涯規劃 • 多元化學習

Career Planning and diversified learning activities

建立及推展校本生涯規劃，引導學生明瞭未來路向，及早訂定或規劃人生目標。學校特意於校內、外安排各類課外活動、行業分享、職場工作體驗活動、院校參觀、高中應用課程、邀請不同行業的嘉賓及專業人士到校分享，啟發學生，引導學生力爭上游。此外，學校安排性格測試、成長營、大學體驗活動、升學就業輔導服務、比賽及表演等不同學習經歷讓學生認識自我、培養積極求進的期望，讓學生對前路充滿信心及希望。

We establish and promote school-based life planning, guiding students to visualize their future paths in order to let them set and plan their life goals early. We organize various extra-curricular activities, sharing sessions in different areas, job tasting programmes, visits to education institutions and applied learning. We invite professionals and experts of various fields to share with our students to inspire them to strive for the best. In addition, we offer aptitude tests, training camps, activities for tasting university

life, career guidance services, competitions and performances to let students have a deep understanding about themselves, so as to excel and feel hopeful about their future.

關愛共融 • 強大支援

Love in harmony • Support in powerfulness

本校學生性格溫純、開朗及友善，除學生本身特質外，有賴各組別老師對學生的關愛、悉心的照顧及無私的付出，包括輔導組、學生支援組、生涯規劃組、福音事工委員會、德育及公民教育組、活動組、訓導組等，學生承傳老師的教導，將關愛傳揚，建立豐盛的生命，締造美好人生。

Our students are amiable, cheerful and friendly. This is not only because of their own characters but also because of teachers' unconditional support and care. The Guidance Team, Student Support Team, Career and Life-Planning Team, Religious Affairs Committee, Moral and Civic Education Team, Extra-curricular Team, and Discipline Team all work together to teach students whole-heartedly. They spread the message of love and care and build our students a beautiful, fruitful and fulfilling life.
