If you have no objection to your child taking part in the school’s physical and/or sporting activities now but later find that your child is ill or sick and should be restrained from participation in physical/sporting activities, please write to the PE teachers and inform them immediately. If parents are not sure whether your child is suitable to take part in the school’s physical and/or sporting activities, parents should consult a registered medical practitioner as soon as possible.

Option C: Students may bring their own lunch to school. (They may use the lunchbox keep-warm service. For details please refer to Appendix 4.)

14. Application for Having Lunch At Home Permit (Appendix 5)

In order to encourage our students to make a good use of lunch time by participating in more school activities and communicating with classmates and teachers, and, due to a lack of proper eating places in the district of Fairview Park, all students are required to stay at school for lunch. Your child can bring his/her own food or buy food at the school tuck shop.

Please fill in the reply slip if your child lives in Fairview Park or a nearby district and there is any necessity for him or her to go home for lunch. Please ask your child to submit the reply slip to the class teacher together with a student photo on or before 5th September 2018 (Wed) in order to make the *Having Lunch At Home Permit*.

Students must show the Permit when leaving school during lunch time. Students are not allowed to leave school for lunch the day on which they forget to bring the Permit. Those who lose their Permits are not allowed to leave school for lunch until they have received a new Permit. Due to the problem caused by students who make use of leaving school for lunch as an excuse and cause disturbances in the district or area of town centre, we sincerely hope that parents can check and guide their children's behavior if they apply for having lunch at home.

15. Application for Taking Mobile Phone to School (Appendix 6)

Carrying a mobile phone to school may affect your children's learning. It may also cause a loss of property. There are some regulations about carrying mobile phone to school which we hope you will urge your children to follow:

1. Mobile phones are expensive, and have no direct relation to learning. As such the school thinks that carrying mobile phones by students is not necessary.
2. If parents need to contact a student, they may make a call to the school office.
3. If students need to contact their parents, they may come to the General Office (or the school entrance area if the school officer has gone off duty) to use the phone.
4. If parents insist that there is a special need for their children to carry a mobile phone to school, they may fill in the attached application form. The student is only allowed to carry a mobile phone to school after the application has been approved. Students must switch off their mobile phones at school and are not allowed to use them inside school. Students should also be aware of their phone and take the risk of losing the phone or being punished when they violate related regulations.
5. Punishment will be given to the student who takes a mobile phone to school without previous application and approval, or uses it in the school area.

We earnestly request you to urge your children to follow the above rules. If you find that it is necessary to apply for permission for your children to take a mobile phone to school, you may tell your children to get a form from their class teacher, and return it on or before 11th September 2018. The school will adhere to the above regulations to handle students' cases of taking a mobile phone to school starting from 24th September 2018. All students are prohibited from taking mobile phones to school before that date.

16. Intranet System Users Guidelines (Appendix 7)

Information Technology is an important but expensive teaching resource. The government and the school need to invest a large amount of money and human resources to help students acquire related knowledge. We have always done our best to promote IT education. People from all walks of life are able to know more about the School through our website. Besides, we have started to use the Intranet as a way of communicating between our teaching staff and students. Now, it is common for our students to use the Intranet email. Due to the above situation, we must set up user guidelines to ensure the resources are being properly used and a healthy IT culture is developed.

We sincerely ask parents to read the *Intranet System Users Regulations* (Appendix 7) together with your children. Please sign the *Agreement* and submit it to the class teacher by 6th September 2018.

17. Road Safety (Appendix 8)

The school is concerned about student's safety when they travel to and from the school, thus we have issued the *Road Safety Important Reminders*. Please remind your child about the importance of Road safety.

18. Emergency Ward Service Fee

If your student is sick or hurt in an accident that requires immediate medical treatment, we will call the ambulance and send the student to Emergency Ward accompanied by our staff. We will also contact his/her parent immediately. However, the Emergency Ward service fee (HKD 180) and other medical charges must be paid by the parents. If there is any financial difficulty, you may use the Waiving Mechanism to apply to waive the medical fee from the Public Hospital Medical Social Workers. If there is any opinion or special request, you may send a letter to the class teacher on or before 6th September 2018 (Thursday) so that we can follow up the case.

19. Arrangement of School Locker

In order to alleviate students' burden of having an overweight school bag, our students may use the school locker arranged by the school. Two students will share a locker. Students must follow the *Locker User Guidelines* on the appropriate use of the lockers. We will terminate his/her right to use the locker if any student violates the Guidelines. If you wish to apply for a school locker for your child, please fill in the reply slip and remind your child of the *Locker User Guidelines*.

1. The guidelines are as follows: Students must apply for the use of lockers before the official application period. Late application will not be entertained. The school reserves the rights on the approval of application.
2. The locker is a school asset. Students should take good care of it. If the locker is damaged they should inform the school immediately and be responsible for compensation. Students who damage the locker on purpose will be punished.
3. Students should prepare the lock themselves and keep the key safe.
4. Students can only put their textbooks or things which are necessary for the class in the locker. Students who put anything not related to the lessons will be deprived of the right to use the locker.
5. Students must lock their lockers in order to protect their property. We do not take responsibility for any property loss.
6. After the teacher has made the arrangement, students can only use the designated lockers. They must not change their lockers or lend their lockers to others, otherwise, they may not be allowed to use the locker and punishment may be given to related students.
7. Students must clear all the items in their lockers within one week starting from the last school day. We will clear the locker for students after the deadline and we will not take any responsibility for property loss during clearing.
8. Students who borrow a locker from school need to bear all the cost if there is any damage to the locker or any maintenance needs to be taken due to the loss of locker key or clearing of locker after the borrow date.
9. If the locker key is missing, we suggest student first look for the key and then borrow the key from their partner. If the loss is confirmed, students should buy a new key or lock. If there is any difficulty, students should contact the class teacher or Mr. Lam Tsz Piu.

* The above guidelines may be revised from time to time on actual needs. Students should refer to the latest notice for verification.

20. Offering Gifts to School Staff

Our school has formulated a policy on the solicitation and acceptance of gifts by staff in their official dealings. In maintaining a high moral standard of our staff, it is stipulated that no staff in our school should solicit or accept gifts, money or any other form of advantages in the course of their duty. Although we understand that offering gifts by parents are gestures of good will, the acceptance of gifts may turn into a common practice. This may in turn cause unwarranted speculation by outsiders and bring misunderstanding or embarrassment to the school and its staff. In order to avoid this misunderstanding, parents are earnestly requested to refrain from offering gifts to our staff.

As teaching and nurturing students are the duties of teachers, the best reward for the profession is the academic advancement and moral improvement of their students. We therefore appeal to you to support us in managing our school in a fair and just way. If any members of our staff approach you for an advantage, please report to me immediately.

Road Safety Important Reminders

Notice for road-users inside Fairview Park:

1. Student must be careful when crossing the road. After getting off at the bus stop, students must use the traffic island then wait and cross the Fairview Park Road South.
2. Before crossing Fairview Park Road from the Number 2 bus stop, students must make sure there is no vehicle approaching on the right. When students are at the traffic island, on the left, make sure the road is safe and that there is no vehicle moving out from the Golden Bamboo Road East; then cross the road. Please make ways for the vehicles and do not hurry over the personal safety.
3. When using the traffic island, students must stand at the area between the two lamp poles. Do not stand outside of it (including the white shading area).
4. Students must be patient and do not cross the road if there are too many students waiting at the traffic island lest congestion should occur.
5. While waiting at the traffic island, pay attention to the traffic conditions and cross the road only if it is safe.
6. Do not cross Fairview Park Road right away after getting off buses due to convenience. Never stay at the middle of the road as it causes view obstruction of the drivers and accidents may happen.
7. When students take the Golden Bamboo Road to and from school, use the pedestrian sidewalk and do not walk near the middle of the road.
8. Do not frolic whenever walking on the middle of the road, and do not walk in a row when walking along the Golden Bamboo Road East or at the traffic island. Please pay attention to conditions around for the sake of safety.
9. After school, students should use Golden Bamboo Road East. Students should use the pedestrian road when turning left straight to the Number 10 bus stop or turning right straight to the Number 9 bus stop
10. Students should behave themselves lest traffic obstruction or disturbance to residents should occur.
11. Students should always keep an eye on cycling road users.
12. Students should not gather in groups when using the pedestrian road and should not gather in front of the school gate lest the exit should be blocked.
13. Students should be in order when getting on and off private van and entering the school. Pay attention to traffic conditions for the sake of safety.
14. The school shall make suitable follow-up actions to students who have failed to adhere to traffic rules.

Six Basic Principles when Crossing Streets:

1. Pick a safe

First choose a place which allows crossing the road safely, such as on overpass, underpass, zebra crossing, traffic light crossing, etc. If the above crossing places cannot be found, you should cross the road at a place which allows you to look the road conditions around you clearly and drivers to watch if there is any pedestrian going past.

2. Stand still before crossing

You should stand still before crossing, look around and beyond at the road conditions. You should also stand further back from the edge of the road because it is safer. Never climb across the barriers or planters at the side or the middle of the road.

3. Listen and watch carefully

Other than watching, you should be sharp eared if there is any vehicle approaching from an unseen angle (particularly for bicycles and motorbikes). Meanwhile, you should be aware if any still vehicle may start at any time. Take extra care if the environment is noisy.

4. Make way for vehicles

If a vehicle is approaching, you should make way for it. Before you start crossing the road, you should look around you, be careful of your distance between the vehicle, its speed and direction. Evaluate if you have enough time to cross the road.

5. Walk straight

After making sure there is no vehicle is approaching and you have enough time to cross the road, you should walk straight across the road or stop at the traffic island located in the middle of the road so you are able to check the lane condition of the other side. Do not run, walk obliquely or stop in the middle.

6. Stay attentive during crossing

Use eyes and ears to see and listen to what is happening around you when crossing roads. Do not do things at the same time when crossing (such as using a mobile). If there is an accident (such as realized a vehicle is approaching in the middle of the road), you should choose to stop, continue going forward or backward depending on the conditions. Let the drivers know which way you are moving. If there is an emergency, you should stop at the white line on the driving lane or the partition line at the middle of the road.

In short, no matter whether you are crossing at the designated crossing facilities or not, you should be always attentive, careful and concentrated.
