

2020/21 Survey of Drug Use among Students

Dear Parents,

The Narcotics Division is now conducting the captioned territory-wide “Survey of Drug use among Students” to understand students' knowledge of and attitude towards drug-taking, and their views on anti-drug education. By means of scientific random sampling, our school has been randomly selected as one of the sampled schools for data collection, and your child is invited to participate in this questionnaire Survey on 5<sup>th</sup> Novemeber, 2021 which will be conducted on an anonymous basis.

Data collected in the Survey will be handled in strict confidence and will only be used for aggregate statistical analyses. Data pertaining to individual students or schools will not be released. All completed questionnaires will be destroyed upon completion of the Survey.

The Narcotics Division has commissioned an independent market research organisation, Consumer Search Hong Kong Limited (the Research Team), to look after the project execution of this important exercise. Fieldwork will be conducted between September 2020 and December 2021. Data collection will be undertaken by the Research Team at a designated time in school.

Participation in this anonymous Survey is entirely voluntary. If you agree your child to participate in the Survey, no response is needed. However, if you consider your child is not an appropriate candidate to join this study, please simply inform your child to return the unanswered questionnaire during the class session. Concerted effort and support are crucial to the success of the Survey and the Government’s formulation of anti-drug policy. Thank you in advance for your consideration and support.

If you have any enquiries, please contact the General Office or Miss Lam Siu Fan at 24712622. Thank you for your kind attention.

Yours faithfully,

  
Mr. Chan Ka Fai  
Principal
